

## DEPARTMENT OF PUBLIC WORKS ENGINEERING DIVISION CITY OF VALLEJO

November 16, 2010

## **PUBLIC NOTICE**

SUBJECT: Downtown Vallejo Streetscape Improve. Project - Phase 1A CONSTRUCTION UPDATE

(File Number 9846.08.00)

Curb & gutter has been installed on Sacramento Street and the south side of Virginia Street. Consequently, both Sacramento Street and portion of Virginia Street were paved with asphalt concrete (ac) last week.

The general contractor's next activities include finish grading sidewalk areas in the previously mentioned areas. Raising utility valves to finish grade within these same sidewalk areas and forming for seat walls are also upcoming contractor activities. These activities will lead to the concrete pour of the sidewalk which is anticipated to occur next week.

NBC has provided a schedule describing the planned construction activities for the next 3 weeks. Please see attached.

Information regarding the construction plans is also available on the City website. ( http://www.ci.vallejo.ca.us/GovSite/default.asp?serviceID1=761 )

If you have any questions, please contact David Espinoza at (707) 648-4538 or e-mail: despinoza@ci.vallejo.ca.us
