## INTRODUCTION

---

### OVERVIEW

The City of Vallejo (the "City") annually levies and collects special assessments in order to maintain the improvements within the Landscape Maintenance Districts ("LMD" or "LMDs"). The LMDs have been formed pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the *California Streets and Highways Code* (the "1972 Act"). This document includes the Engineer's Reports (the "Reports") for eleven Landscape Maintenance Districts (hereafter referred to as "LMD" or "LMDs") designated as:

- Bordoni Ranch LMD
- Carriage Oaks LMD
- Garthe Ranch LMD (Zone A and Zone B)
- Glen Cove III LMD
- Hunter Ranch III LMD
- Marine World/Fairgrounds Drive LMD
- Marin View LMD
- Northeast Quadrant LMD (Including Zone A)
- Sandpiper Point LMD
- South Vallejo Business Park LMD
- Town and Country II through V LMD

In an effort to streamline the annual administrative process and expenses, the annual Reports required for each LMD, pursuant to the 1972 Act, are incorporated into this single Report. This comprehensive Report address the overall legislative authority, benefit rationale and method of apportionment for the LMDs listed above and provides separately a more detailed description of each LMD's boundaries, improvements, proposed budget and assessments for fiscal year 2012-2013 as required by Chapter 1, Article 4, beginning with Section 22565 of the 1972 Act.

### ASSESSMENT PROCESS

This Report was prepared to establish the budgets for the continued capital improvement and services expenditures that would be funded by the proposed 2012-2013 assessments, determine the benefits received from the lighting and landscaping maintenance and improvements by property within the LMDs and the method of assessment apportionment to lots and parcels within the LMDS. This Report and the proposed assessments have been made pursuant to the provisions of the 1972 Act and Article XIID of the California Constitution (the "Article").

In each subsequent year for which the assessments will be continued, the Council must direct the preparation of an Engineer's Report, budgets and proposed assessments for the upcoming fiscal year. After the Engineer's Report is completed, the Council may preliminarily approve the Engineer's Report and proposed assessments and establish the

date for a public hearing on the continuation of the assessments. This Report was prepared pursuant to the direction of the Council.

If the Council approves this Engineer's Report and the continuation of the assessments by resolution, a notice of assessment levies must be published in a local paper at least 10 days prior to the date of the public hearing. The resolution preliminarily approving the Engineer's Report and establishing the date for a public hearing is used for this notice.

Following the minimum 10-day time period after publishing the notice, a public hearing is held for the purpose of allowing public testimony about the proposed continuation of the assessments. This hearing is currently scheduled for June 26, 2012. At this hearing, the Council would consider approval of a resolution confirming the continuation of the assessments for fiscal year 2012-2013. If so confirmed and approved, the assessments would be submitted to the County Auditor/Controller for inclusion on the property tax rolls for Fiscal Year 2012-2013.

#### **ENGINEER'S REPORT**

Beginning in 2011-2012, SCI Consulting Group became the Assessment Engineer for these LMDs. To maintain an accurate reference and legally defensible record of the LMDs, pertinent language used in the previous Engineer's Reports has been retained herein, and the fundamental methodology has been maintained, essentially verbatim. (In most cases, language taken from the previous Engineer's Report is shown in Times New Roman, 10 pt. Font.)

#### **PROPOSITION 218**

After the passage of Proposition 218 in November 1996 (now Articles XIIC and XIID of the California Constitution), the City conducted a complete analysis of the proposition and its application to the LMDs and the assessments related thereto. Pursuant to the *Article XIID Section 5* of the Constitution, certain existing assessments are exempt from the substantive and procedural requirements of *Article XIID Section 4* and property owner balloting for the assessments is not required until such time that the assessments are increased. Specifically, the City determined that the improvements and the annual assessment for each of the then existing 1972 Act Districts were part of the conditions of property development and approved by the original property owner (developer). As such, pursuant to *Article XIID Section 5b* of the Constitution, the existing assessments were approved by all the property owners at the time the assessment was created (originally imposed pursuant to a 100% landowner petition) and therefore, the previously adopted assessments for each of those LMDs were exempt from the procedural requirements of the *Article XIID Section 4*.

With the exception of the Bordoni Ranch LMD, Northeast Quadrant LMD and the Highlands at Garthe Ranch (Garthe Ranch LMD Zone B) which were balloted for a new or increased assessment that included an inflationary adjustment, each of the LMDs contained within this Report currently have fixed maximum assessment rates with no

adjustment for inflation. Although these assessment rates (with the exception of Marin View LMD) were established prior to the passage of Proposition 218 and have been identified as exempt assessments pursuant to Article XIID Section 5b of the Constitution, it has been determined that the current assessment revenues for most of these LMDs are no longer sufficient to cover the annual cost of providing the improvements.

Since the passage of Proposition 218, all new or increased assessments established for the LMDs and identified as the "Current Maximum Assessment Rate" in this Report have been submitted to the property owners of record and approved by such property owners pursuant to the provisions of the California Constitution Article XIID Section 4. Specifically:

The Marin View LMD was formed in fiscal year 1999-2000. As part of that formation process, the City conducted a property owner protest ballot proceeding for the proposed maximum assessment. The results of that balloting indicated that majority protest did not exist and the "Current Maximum Assessment Rate" identified in this Report for that LMD was approved and confirmed by the City Council. Although the maximum assessment for this LMD was approved through a property owner protest ballot proceeding, the maximum assessment established did not include an inflationary adjustment.

Also in fiscal year 1999-2000, the City conducted property owner protest proceedings for a proposed assessment increase for the Northeast Quadrant LMD. The assessment increase (new maximum assessment) presented to the property owners in a property owner protest ballot proceeding and subsequently approved by those property owners, included an annual inflationary adjustment for the assessments.

In fiscal year 2007-2008 the City conducted proceedings for the formation of the Highlands at Garthe Ranch Maintenance District and concurrently annexed the properties within this LMD to the existing Garthe Ranch LMD as Zone B. As part of the formation/annexation process the City conducted a property owner protest ballot proceeding on the proposed new assessment for the associated improvements. The new maximum assessment presented to the property owners of record and subsequently approved also included an annual inflationary adjustment for the assessments.

In fiscal year 2008-2009 the City conducted property owner protest proceedings for a proposed assessment increase for eight of the LMDs outlined in this Report. These eight LMDs included:

- Carriage Oaks LMD
- Garthe Ranch LMD (Zone A only)
- Glen Cove III LMD
- Hunter Ranch III LMD
- Marine World/Fairgrounds Drive LMD
- Sandpiper Point LMD
- South Vallejo Business Park LMD
- Town and Country II through V LMD

In addition to the proposed assessment rate increases, the City proposed the implementation of an annual inflation adjustment for those new maximum assessment rates. In connection with the proposed assessment increases, pursuant to the provisions of the California Constitution, Article XIID Section 4, the City conducted a property owner protest ballot proceeding for the establishment of the proposed new maximum assessments and inflationary adjustment for each respective LMD prior to imposing such new assessments.

The tabulation of the ballots indicated that majority protest did not exist for the proposed new or increased assessment for the following two LMDs only:

- Marine World/Fairgrounds Drive LMD
- South Vallejo Business Park LMD

Also in fiscal year 2010-2011, the City conducted a property owner ballot proceeding for a proposed new assessment for the Bordoni Ranch LMD. The new assessment presented to the property owners in a ballot proceeding and subsequently approved by those property owners included an annual inflationary adjustment for the assessments.

These assessments are formed consistent with Proposition 218, The Right to Vote on Taxes Act, which was approved by the voters of California on November 6, 1996, and is now codified as Articles XIIC and XIID of the California Constitution. Proposition 218 provides for benefit assessments to be levied to fund the cost of providing services, improvements, as well as maintenance and operation expenses to a public improvement which benefits the assessed property.

Proposition 218 describes a number of important requirements, including property-owner balloting, for the imposition, increase and extension of assessments, and these requirements are satisfied by the process used to establish this assessment.

#### **SILICON VALLEY TAXPAYERS ASSOCIATION, INC. v SANTA CLARA COUNTY OPEN SPACE AUTHORITY**

In July of 2008, the California Supreme Court issued its ruling on the Silicon Valley Taxpayers Association, Inc. v. Santa Clara County Open Space Authority ("SVTA vs. SCCOSA"). This ruling is the most significant legal document in further legally clarifying Proposition 218. Several of the most important elements of the ruling included further emphasis that:

- Benefit assessments are for special, not general, benefit
- The services and/or improvements funded by assessments must be clearly defined
- Special benefits are directly received by and provide a direct advantage to property in the assessment district

This Engineer's Report has been evaluated in light of the SVTA vs. SCCOSA decision and updated to be consistent with the decision. There have been a number of clarifications

made to the analysis, findings and supporting text to ensure that this consistency is well communicated.

#### **DAHMS V. DOWNTOWN POMONA PROPERTY**

On June 8, 2009, the 4<sup>th</sup> Court of Appeal amended its original opinion upholding a benefit assessment for property in the downtown area of the City of Pomona. On July 22, 2009, the California Supreme Court denied review. On this date, Dahms became good law and binding precedent for assessments. In Dahms the Court upheld an assessment that was 100% special benefit (i.e. 0% general benefit) on the rationale that the services and improvements funded by the assessments were directly provided to property in the assessment district. The Court also upheld discounts and exemptions from the assessment for certain properties.

#### **BONANDER V. TOWN OF TIBURON**

In the December 31, 2009, the 1<sup>st</sup> District Court of Appeal overturned a benefit assessment approved by property owners to pay for placing overhead utility lines underground in an area of the Town of Tiburon. The Court invalidated the assessments on the grounds that the assessments had been apportioned to assessed property based on in part on relative costs within sub-areas of the assessment district instead of proportional special benefits.

#### **BEUTZ V. COUNTY OF RIVERSIDE**

On May 26, 2010 the 4<sup>th</sup> District Court of Appeals issued a decision on the Steven Beutz v. County of Riverside ("Beutz") appeal. This decision overturned an assessment for park maintenance in Wildomar, California, primarily because the general benefits associated with improvements and services was not explicitly calculated, quantified and separated from the special benefits.

## **CHANGES TO THE LANDSCAPE MAINTENANCE DISTRICTS**

---

Changes within the LMDs that affect the 2012-2013 levy of assessments are outlined below.

### **ANNEXATIONS**

No new annexations have occurred since the fiscal year 2011-2012 Engineer's Report was approved.

### **NEW LANDSCAPE MAINTENANCE DISTRICTS**

No new Districts have been formed since the fiscal year 2011-2012 Engineer's Report was approved.

## PLANS & SPECIFICATIONS

---

The LMDs provide maintenance of landscaping and lighting within the public right-of-way, dedicated landscape easements, parks, detention basins, and street lighting (the "Improvements") in the various LMDs throughout the City. Each LMD has differing costs and provides direct and special benefits to the parcels within these LMDs. All properties will be assessed only for the maintenance of improvements within their respective LMD.

Improvements within the LMDs include but are not limited to: installation, maintenance and servicing of public facilities, and incidental expenses, including but not limited to, street lights, public lighting facilities, landscaping, sprinkler systems, statuary, fountains, other ornamental structures and facilities, landscape corridors, ground cover, shrubs and trees, street frontages, drainage systems, fencing, entry monuments, graffiti removal and repainting, and labor, materials, supplies, utilities and equipment, as applicable, for property owned or maintained by the City of Vallejo. Any plans and specifications for these improvements will be filed with the Public Works Director of the City of Vallejo and are incorporated herein by reference.

Installation means the construction of lighting and landscaping improvements, including, but not limited to: land preparation, such as grading, leveling, cutting and filling, sod, landscaping, irrigation systems, sidewalks and drainage and lights.

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of any improvement, including repair, removal or replacement of all or any part of any improvement; providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury; the removal of trimmings, rubbish, debris, and other solid waste, and the cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Servicing means the furnishing of electric current or energy for the operation or lighting of any improvements, and water for irrigation of any landscaping or the maintenance of any other improvements.

Incidental expenses include all of the following: (a) The costs of preparation of the report, including plans, specifications, estimates, diagram, and assessment; (b) the costs of printing, advertising, and the giving of published, posted, and mailed notices; (c) compensation payable to the County for collection of assessments; (d) compensation of any engineer or attorney employed to render services in proceedings pursuant to this part; (e) any other expenses incidental to the construction, installation, or maintenance and servicing of the Improvements; (f) any expenses incidental to the issuance of bonds or notes pursuant to Streets & Highways Code Section 22662.5; and (g) costs associated with any elections held for the approval of a new or increased assessment. (Streets & Highways Code §22526).

The assessment proceeds will be exclusively used for Improvements within the LMDs plus Incidental expenses.

## DESCRIPTION OF THE LANDSCAPE MAINTENANCE DISTRICTS

---

### LANDSCAPE MAINTENANCE DISTRICT BOUNDARIES, SPECIFIC AREAS MAINTAINED AND FISCAL YEAR 2012-2013 ESTIMATE OF COST AND BUDGETS

A description of the boundaries, areas maintained, Improvements and FY 2012-13 Budgets are described in detail below for each LMD.

#### BORDONI RANCH LMD

This LMD is designated as Bordoni Ranch Landscape Maintenance District and may be referred to as Bordoni Ranch LMD. Bordoni Ranch LMD was formed in 2010. The LMD serves two Zones:

- Zone 1 is comprised of all parcels of land within the Bordoni Ranch subdivision, as well as the two parcels on the west side of Columbus Parkway that are the proposed site of the planned detention basin/wetlands;
- Zone 2 is comprised of the remaining three parcels of land on the west side of Columbus Parkway that are proposed to be future residential subdivisions, including the planned Tuscany subdivision.

#### Boundaries

Zone 1 consists of all lots, parcels and subdivisions of land within the proposed residential subdivision known as Bordoni Ranch, generally located east of and adjacent to Columbus Parkway and south of Regents Park Drive and Brunswick Drive. Zone 1 also includes the two parcels that are the site of the proposed detention basin as well as vacant wetlands. These two parcels are generally located west of and adjacent to Columbus Parkway, and north of Benicia Road, and south of Greenmont Drive.

Zone 2 consists of all lots, parcels and subdivisions of land within the proposed residential subdivision known as Tuscany as well as vacant land and two parcels zoned for residential development (future single-family residential subdivisions). These properties are generally located west of and adjacent to Columbus Parkway; and north of Greenmont Drive, and south of Aragon Street.

#### Improvements

The LMD maintains landscape improvements, open space areas and park facilities. It has been determined that specific improvements to be maintained throughout the LMD are improvements that provide special benefits to each property within the LMD, the cost of which will be proportionately shared by properties in both Zone 1 and Zone 2 ("Shared Improvements"). Conversely, other improvements to be maintained throughout the LMD that are specifically the result of developing properties within the Bordoni Ranch residential subdivisions are improvements that provide special benefits to only those properties, and the cost of providing such improvements shall be proportionately shared by only the properties in Zone 1 ("Zone 1 Improvements"). Therefore, Zone 1 receives benefits from both the Zone 1 Improvements and the Shared Improvements while Zone 2 receives benefits only from the

Shared Improvements. The Improvements to be maintained throughout the LMD are generally described as:

#### Zone 1 Improvements

- Irrigated parkways and slopes (streetscape) within the public right-of-ways on the perimeter of the Bordoni Ranch subdivision, including but not limited to:
  - Landscaped area located on the east side of Columbus Parkway, from Regents Park Drive southward to the southern end of the Bordoni Park subdivision;
  - Landscaped area and approximately 19 street trees located on the south side of Regents Park Drive, from Columbus Parkway eastward to approximately 50 feet west of Brunswick Drive;
  - Landscaped area, including approximately 54 street trees on both sides of Waterstone Parkway between Regents Park Drive and Abbey Drive.
- Irrigated open space areas and wetlands dispersed throughout the Bordoni Ranch subdivision that provide a transition from the streetscape landscaped areas to the non-irrigated open space areas, and/or are located adjacent to the residential units or common areas within the Bordoni Ranch subdivision.
- Detention basin serving the Bordoni Ranch development.

#### Shared Improvements

- Landscaped median islands on Columbus Parkway, approximately between Regents Park Drive on the north and Benicia Road on the south.
- Designated parkland, located at the corner of Columbus Parkway and Regents Park Drive. The park is proposed to include, but is not limited to:
  - One basketball court;
  - Two bocce courts;
  - Toddler's play structure;
  - Older children's play structure;
  - Picnic areas with tables, barbeques, and benches;
  - A 21-stall parking lot.

#### **General Information**

Prior to the Bordoni Ranch development, there was a 6.74 acre park located on the south side of Regents Park Drive just east of Columbus Parkway. This park had very few amenities and consisted primarily of grass, trees and sidewalks. The park was maintained by the Greater Vallejo Recreation District (the "GVRD"). In anticipation of the increased demand to be placed on the park by the Developments, the previous park was demolished and is going to be completely reconstructed and enhanced as described above.

Specific projects planned in the next five years include the following:

- Firebreak and park clearance of overgrowth

### **LMD Budgets**

The following provides the budget and maximum assessment rates for each Zone for fiscal year 2012-13.

City of Vallejo			
Bordoni Ranch Landscape Maintenance District			
Fund Number (#177)

<b>Undesignated Available Funds</b>	<b>\$0.00</b>	<b>\$0.00</b>	<b>\$0.00</b>

## **CARRIAGE OAKS LMD**

This LMD is designated as Carriage Oaks Landscape Maintenance District and may be referred to as Carriage Oaks LMD. Carriage Oaks LMD was formed in 1990. The LMD serves a residential neighborhood of 254 parcels located in northeast Vallejo.

### **Boundaries**

The LMD lies within the City of Vallejo, generally located within the area bounded by Interstate 80, State Route 37, the Country Club Crest Ranch and Cimarron Hills Subdivisions.

### **Improvements**

The LMD maintains landscaped areas and weed control zones including approximately 1 acre of ornamental and native landscaping which includes ground cover, shrubbery and trees; and 10 acres of plantings and weed control described as follows:

- Remove & replace over-mature shrubs on Borges slopes
- Thin out over-mature vegetation at Griffin & Souza
- The landscape areas from Cimarron Court to Souza
- The strip of weed height control along the Marine World Parkway sound wall and the open space below, to the west of Highway 80
- Weed height control for open space areas
- Prune trees in LMD easements
- Upgrade irrigation on slopes along Borges

### **General Information**

Slope drainage from Highway 80 is highly erosive to the open space area and has significantly impacted the LMD costs over the last few years. Although repairs due to erosion cannot be predicted, it is essential that the LMD's Rehabilitation Fund be adequately funded for any unforeseen repairs or replacements.

The life expectancy of native shrubbery is five to fifteen years. The majority of the current landscape improvements (shrubbery) within the LMD will likely need replacement over the next several years.

Specific projects planned in the next five years include the following:

- Renewal pruning from Borges to Souza
- Street tree trimming Borges to Souza
- Prune trees in LMD easements
- Irrigation controller upgrade
- Upgrade irrigation on slopes along Borges
- Thin out over-mature vegetation at Griffin and Souza
- Remove and replace over-mature shrubs on Borges slopes
- Additional dead wood reduction

A financial analysis of the LMD indicates that the current maximum assessment revenues do not generate adequate revenue to provide for the Improvements. The City conducted

proceedings in FY2008-2009 to ballot the property owners within the LMD for an increased assessment and an annual inflationary adjustment commencing in fiscal year 2008-2009, which was not approved.

**LMD Budget**

The following provides the budget and maximum assessment rate for fiscal year 2012-13.

City of Vallejo	
Carriage Oaks Landscape Maintenance District	
Fund Number 7720 (#170)	
<b>Contract Maintenance Costs</b>	
	<b>2012-13 Budget</b>
Maintenance Costs	\$3,474

Transfer to Operating Reserve Fund	\$0.00
<b>Anticipated Rehabilitation Reserve Fund Balance</b>	<b>\$12,725.04</b>

## GARTHE RANCH LMD

This LMD is designated as Garthe Ranch Landscape Maintenance District and may be referred to as Garthe Ranch LMD. The LMD is comprised of two Zones:

- Zone A (the original Garthe Ranch LMD) was formed in 1987 and serves a residential neighborhood consisting of 1,145 parcels within thirteen developments located in southeast Vallejo; and
- Zone B (the Highlands) was formed and established in October 2006 and serves a residential development consisting of 105 parcels situated in the eastern portion of the City of Vallejo.

## Boundaries

Zone A of the LMD is generally located within the areas bounded by Columbus Parkway, Lake Herman Road, the Vallejo-Benicia city limits line, the Springtree/Fleming Hill LMD, Tennessee Street, Saint Catherine's Church, and the Summit I and Somerset Highlands III Landscape Maintenance Districts.

Zone B is generally located east of and adjacent to Columbus Parkway at Spring Road, south and west of Ascot Parkway, and north of Georgia Street.

## Improvements

Zone A - The LMD maintains landscaped areas, weed control zones and trail systems for the special benefit of properties within Zone A including approximately 30 acres of native and ornamental ground cover, shrubbery and trees; 31 acres of plantings and weed control that are found in the following areas:

- The Ascot Parkway frontage which extends eastward to Newcastle Drive
- The Georgia Street frontage extending to Ascot Parkway
- Hilary Way between Columbus and Ascot Parkways
- The Columbus Parkway slopes below the Coventry Hills subdivision and Highland Apartments
- The frontages along Windsor, Westminster, Southport, and Ramsgate Ways

The open space areas behind the residences of Ascot Parkway, Britannia Drive, Hawkins Street, Southport Way, Georgia Street, Knights Circle, Devonshire and Joel Courts, Devonshire Avenue, Manor Court, Newcastle Drive, Newcastle Court, Windsor and Westminster Ways, Sandhurst Drive, Sandhurst Court, and Saxony Court

Specific Zone A improvements over the next five years includes the following:

- Slope clean-up Ramsgate Britania to openspace
- Remove and replace fence east side of Ascot between 2272 and 2212
- Clean-up on Georgia between 4899 and 4883
- Clean-up on Georgia between 5049 Georgia and 478 Devonshire St

- Remove & replace irrigation & plants along southwest side of Ascot between Southport & Georgia
- Remove and replace over-mature plantings and irrigation on east side slope of Southport from Georgia and Blyth
- Repair irrigation in various areas that have been turned off
- Extend firebreaks and thin vegetation

Zone B - The LMD maintains landscaped areas, weed control zones and parkland for the special benefit of properties within Zone B including:

- Approximately one acre of irrigated parkways and slopes (streetscape) within the public right-of-ways along the interior streets of the Zone.
- Approximately half of an acre of irrigated open space areas that provide a transition from the streetscape landscaped areas to the non-irrigated open spaces areas, and/or are located adjacent to the residential units or common areas within the Highlands subdivision.
- Approximately one and a half acres of irrigated parkways and slopes (streetscape) on the perimeter of the Zone.
- Approximately 25 acres of non-irrigated (natural) open space area located in the eastern half of the Zone behind the residential subdivision.

A half-acre park site is located in the center of the residential subdivision. Reserves will be needed for playground equipment certification and repairs as well as any fence repairs.

Specific Zone B (Highlands) improvements over the next five years include the following:

- Irrigation system check
- Infill plants
- Playground inspection
- Replace defective irrigation valves
- Add mulch on Columbus Parkway from Tennessee to Springs Rd medians and east side slopes.
- Add bark to replant dead vegetation on Springs Road from Dellwood to Eucalyptus Drive
- Replant and bark Columbus Parkway medians and east side slope from Springs Road south approximately seven hundred feet (700') south.
- Repaire swal in the park

### **General Information**

The life expectancy of native shrubbery is five to fifteen years.

Although portions of the assessments for Zone A have been spent on rehabilitation in recent years, it is reasonable to assume that additional monies will be necessary in future years for either more rehabilitation of the improvements (particularly irrigation systems) or increased maintenance costs associated with very mature plant material.

## **LMD Budgets**

### Zone A Budget

A financial analysis of the LMD and the improvements indicates that the current maximum assessment rate does not generate sufficient revenues to adequately provide for the improvements. The City conducted proceedings in FY2008-09 to ballot the property owners within the LMD for an increased assessment and an annual inflationary adjustment commencing in fiscal year 2008-09 which was not approved.

The following provides the budget and maximum assessment rate for fiscal year 2012-13.

### Zone B Budget

Zone B (Highlands) was formed and balloted for a new assessment in fiscal year 2006-07, which included an annual inflationary and does not require an assessment increase at this time.

The following provides the proposed budget and assessment rate for fiscal year 2012-13 that is necessary to provide an appropriate level of maintenance for the Highlands (Zone B) of the LMD. The budget includes the City's estimate of anticipated expenditures, revenues and fund balances required for the annual maintenance and operation of the improvements. The assessment rate derived from this budget and the established method of apportionment shall be used to calculate each parcel's assessments for fiscal year 2012-13.

### **GLEN COVE III LMD**

This LMD is designated as Glen Cove III Landscape Maintenance District and may be referred to as Glen Cove III LMD. Glen Cove III LMD was formed in 1987. The LMD serves an area consisting of 2,744 residential parcels from twenty-eight (28) developments located in southeast Vallejo and the development of properties within the LMD is not expected to change significantly.

### **Boundaries**

The LMD lies within the City of Vallejo, generally located within the area bounded by Interstate 80, Interstate 780, Robles Way and the Benicia State Recreation Area.

### **Improvements**

The LMD maintains landscaped areas; weed control zones; and trail systems including approximately 60 acres of ornamental and native landscaping which includes ground cover, shrubbery, and trees; and 62 acres of plantings and weed control that are found in the following areas:

- The boundaries of Robles to the straits and Navone/Palou/Old Glen Cove Road to the Benicia State Recreation Area fence-line and Glen Cove Parkway
- Mistral, Rivermouth, Brigantine, James River, New Bedford Court, Bear Cove Court, Pueblo Court, Duxbury Place, Sandy Neck Way, Sea Cliff Place, Saybrook Way, Antigua Way, and Chesapeake Drive
- Glen Cove Parkway beginning at the west corner of the Marina Complex landscape area fronting the parkway to the intersection of Glen Cove Parkway and Bayside Terrace
- The open space to the west and north of Waterview Terrace
- The slope of Clearview including the slope and trail along the strait to the entrance of the harbor
- South Regatta from the intersection of Glen Cove Parkway to the intersection of Whiteside and South Regatta
- The open space between Paddlewheel, Beston, Ancheta, Topsail, Yachtsman, and Seafarer
- Weed control adjacent to the Benicia State Park fence-line and the PG&E yard to the intersection of Flying Dutchman
- The open space above Weathermark, Leeward, and Windward Courts
- The open space slope of Flying Dutchman, Pirates' Cove, Sea Mist, Topsail, Helmsman, Anchor, Winter Harbor, Wellfleet, Cape Elizabeth, Fairhaven, and Silver Pine to the Benicia State Park fence
- The Hwy. 780 fence-line along the northeast boundary of the LMD
- The access pathway behind Topsail and the landscaping along each side of North Regatta to the intersection of Glen Cove Parkway and North Regatta
- The north side of Sunfish Court
- Outrigger near Sea Horse and the open space to the rear yard fences of Palou and Pueblo

- The open space above Del Sur in the cul-de-sac, above Clearpointe, and the open space above and below the Clearpointe Drive cul-de-sac

Specific improvements over the next five years include the following:

- Irrigation repairs
- Cut and remove all fennel and spot spray along South Regatta fence line
- Cut and haul off fennel behind Camino del Sol
- Line of sight restoration
- Thin out vegetation along Glen Cove Pkwy in front of & behind school
- Thin out vegetation along Glen Cove Pkwy North bound lane from No Regatta to Wellfleet
- Thin out vegetation along Glen Cove Pkwy North bound lane from Wellfleet to Robles
- Prune Eucalyptus behind Wellfleet & pick up excess duff
- Prune Eucalyptus behind Rivermouth & pick up excess duff
- Fence replacement on South Regatta
- Replant from Robels to South Regata
- Trim Glen Cove Pkwy trees
- Replant from South Regatta to Waterview Terrace
- Street tree trimming
- Restore views and deadwood reduction
- Repair and replace fencing
- Complete firebreak extensions
- Tree inventory
- V-ditch and erosion stabilization
- Install posts and "Dog Leash" signs

### General Information

The life expectancy of native shrubbery is five to fifteen years.

A financial analysis of the LMD and the improvements indicates that the current maximum assessment rate does not generate sufficient revenues to adequately provide for the improvements. The City conducted proceedings in FY2008-2009 to ballot the property owners within the LMD for an increased assessment and an annual inflationary adjustment commencing in fiscal year 2008-2009 which was not approved.

Transfer to Operating Reserve Fund	\$0.00
<b>Anticipated Rehabilitation Reserve Fund Balance</b>	<b>\$2,961.41</b>

### **HUNTER RANCH III LMD**

This LMD is designated as Hunter Ranch III Landscape Maintenance District and may be referred to as Hunter Ranch III LMD.

- Hunter Ranch III LMD was formed in 1986
- The LMD serves a residential neighborhood of 190 parcels located in northeast Vallejo and the development of properties within the LMD is not expected to change significantly.

### **Boundaries**

The LMD lies within the City of Vallejo, generally located within the area bounded by Turner, Ascot and Redwood Parkways and the Hunter Ranch I subdivision.

### **Improvements**

The LMD maintains landscaped areas totaling approximately 6 acres of ornamental and native landscaping which includes ground cover, shrubbery, trees, and weed control zones that are found in the following areas:

- The west side of lower Ascot Parkway beginning at the south end of the sound wall at Sterling and Ascot Parkways to the intersection of Redwood Parkway and Ascot Parkway
- The slope landscaping along the north side of Redwood Parkway extending to the Trotter intersection, including three median islands on Redwood Parkway

Specific improvements over the next five years include the following:

- Fencing repairs
- Clean up, prune and haul off debris on Ascot from Sterling to Redwood
- Clean up, prune and haul off debris on Redwood from Ascot to Trotter
- Replace wooden fencing from trotter to Sterling (approx. 3550')
- Upgrade irrigation controllers (2)
- Remove and replace landscaping from Trotter to Sterling
- Remove and replace medians on Redwood
- Update District maps
- Tree survey and mapping

### **General Information**

A FY 2008-2009 owner balloting to increase the assessment in the LMD to enable a full level of service failed and as a result the City reduced the Direct Costs of the LMD by re-negotiating the landscape maintenance contracts (reduced level of service) and less frequent water use in an attempt to bring the annual expenses in line with the assessment revenues.

A financial analysis of the LMD and the improvements indicates that the current maximum assessment rate does not generate sufficient revenues to adequately provide for the improvements.

**LMD Budget**

The following provides the budget and maximum assessment rate for fiscal year 2012-13.

City of Vallejo

### **MARINE WORLD/FAIRGROUNDS DRIVE LMD**

This LMD is designated as Marine World/Fairgrounds Drive Landscape Maintenance District and may be referred to as Marine World/Fairgrounds Drive LMD or Marine World/Fairground LMD.

- Marine World/Fairgrounds Drive LMD was formed in 1989.
- The LMD serves 5 parcels that include a recreational theme park, fairgrounds, and motel/hotel complex (Holiday Inn) located in northeast Vallejo. Marine World/Fairgrounds Drive LMD is fully developed and the Equivalent Benefit Units (EBU) for the LMD is not expected to change.

### **Boundaries**

The LMD lies within the City of Vallejo, generally located within the area bounded by Interstate 80, Fairgrounds Drive, and the western boundary of Marine World and the southern boundary of Solano County.

### **Improvements**

The LMD maintains the landscaped frontages and median plantings totaling approximately 3 acres of native and ornamental ground cover, shrubbery and trees; and 0.5 acre of weed control and new plantings. Fairgrounds Drive serves as the entrance to the Discovery Kingdom (Formerly Marine World) Six Flags Theme Park and Solano County Fairgrounds and the LMD improvements are generally located in the areas described below:

- Just beyond the entrance to the Fairgrounds parking lot to the south; and
- North beyond the overpass of Highway 37

Specific improvements over the next five years include the following:

- Trim Eucalyptus on west side of Fairgrounds from Highway 37 south to Discovery Kingdom
- Remove mature willow tree and replant on the west side of Fairgrounds across from Coach Lane next to slope
- Refresh plantings on east side of Sage St
- Refresh plantings on slopes south of Highway 37 to Discovery Kingdom
- Irrigation controller upgrade
- Irrigation system check
- Tree replacement in medians
- Slope rehabilitation on northwest corner of Fairgrounds and Highway 37
- Refresh plantings on slopes south of Highway 37 to Discovery Kingdom
- Remove mature Willow tree on Fairgrounds across from Coach Lane
- Remove and replace slope on Fairground between Serino & Coach Lane
- Refresh plantings on slopes south of Highway 37 to Discovery Kingdom
- Upgrade plants in medians south of Highway 37 to entry of Discovery Kingdom
- Sage Street Station irrigation upgrade
- Irrigation system check
- Cleanup, renewal prune shrubs, trees at Sage St

- Median improvements along fairgrounds
- Incidental maintenance improvement expenses

### **General Information**

The life expectancy of native shrubbery is five to fifteen years.

A past financial analysis of the LMD and the improvements indicated that the maximum assessment rate did not generate sufficient revenues to adequately provide for the improvements. The City conducted proceedings in FY2008-2009 to ballot the property owners within the LMD for an increased assessment and an annual inflationary adjustment commencing in fiscal year 2008-2009 which was approved.

### **LMD Budget**

A financial analysis of the LMD with the inflationary adjustments indicates that the maximum assessment rate does generate sufficient revenues to adequately provide for improvements. The budget includes the City's estimate of anticipated expenditures, revenues and fund balances required for the annual maintenance and operation of the improvements. The assessment rate derived from this budget and the established method of apportionment shall be used to calculate each parcel's assessments for fiscal year 2012-13.

## **MARIN VIEW LMD**

This LMD is designated as Marin View Landscape Maintenance District and may be referred to as Marin View LMD.

- Marin View LMD was formed July 13, 1999.
- The LMD serves a residential neighborhood of 10 parcels located in north Vallejo and is fully developed.

## **Boundaries**

The LMD lies within the City of Vallejo, generally located at the northern end of Pecan Court and bounded by Hickory and Pecan Streets.

## **Improvements**

The LMD maintains landscaped areas and weed control zones found in the following areas:

- The ornamental and native landscaping within the median island at the end of Pecan Court including ground cover, shrubbery, and trees
- Weed control in open space areas in the northwest corner and in the western portion of the LMD that assists in fire protection.

Specific improvements over the next five years include the following:

- Remove & replace pyracantha along access paths
- Replace access gates

## **General Information**

The property owners within the LMD approved the current assessment rate in Fiscal Year 1999-2000, but the assessment did not include an inflationary adjustment.

Although previous financial analysis of the LMD suggested that assessment revenues may not be adequate to fund the improvements, this funding issue resulted largely from one-time rehabilitation expense and district formation expense that were required due to the lack of maintenance in the area previously, which has generally been resolved over time.

A financial analysis of the LMD in fiscal year 2008-2009 indicated that the assessment revenues were sufficient to fund the maintenance of the improvements and did not require an assessment increase at that time. However, the revenues generated at the maximum assessment rate, limited possible funding for future rehabilitation or unforeseen expenses and without an annual inflationary adjustment, an assessment increase may be required in the near future.

## **LMD Budget**

The following provides the proposed budget and assessment rate for fiscal year 2012-2013 that is necessary to provide an appropriate level of maintenance for the LMD. The budget includes the City's estimate of anticipated expenditures, revenues and fund balances required for the annual maintenance and operation of the improvements. The assessment rate derived

from this budget and the established method of apportionment shall be used to calculate each parcel's assessments for fiscal year 2012-13. The assessment rate derived from this budget is less than or equal to the previously approved maximum assessment rate for the LMD.

### **NORTHEAST QUADRANT LMD**

This LMD is designated as Northeast Quadrant Landscape Maintenance District and may be referred to as Northeast Quadrant LMD.

- Northeast Quadrant LMD was formed in 1984.
- The LMD currently serves approximately 1,867 parcels that include business, residential, and school land uses located in northeast Vallejo.
- The LMD is not fully developed and is currently comprised of 1,848 parcels that include business, residential, and school land uses located in northeast Vallejo.
- The LMD includes 159 parcels (140 assessable parcels) that are identified as Zone A. In addition to the overall improvements provided within the LMD, these parcels receive special benefits from additional local landscape improvements for which they are assessed.

### **Boundaries**

The LMD is located within the area generally bounded by Highway 80, Hunter Ranch II and Hunter Ranch III subdivisions, Sulphur Springs Mountain, Blue Rock Springs Golf Course, Summit Landscaping District and Woodridge Landscape Maintenance District. Within this LMD, parcels adjacent to Admiral Callaghan Lane and Columbus Parkway to the north, Plaza Drive to the west, parcels adjacent to Turner Parkway to the south and parcels adjacent to Ascot Parkway to the east are identified and designated as Zone A.

### **Improvements**

Situated in the Blue Rock area of the City, the LMD is diverse with landscaped parkways, medians and large open spaces. The overall LMD maintains landscaped areas, weed control zones and trail systems that include approximately 23 acres of native and ornamental ground cover, shrubbery and trees; and 9 acres of weed control and plantings that are described below:

- The median of Admiral Callaghan Lane from Columbus Parkway to Turner Parkway
- Remove & replace irrigation & landscaping in median on Ascot between Redwood & Hawkesbury
- Hydro seed bare fire break areas for grass stands
- Remove & replace irrigation & plants on 4 corner medians at Redwood & Ascot
- The median islands at the Columbus Parkway and Admiral Callaghan Lane intersection
- Fill in median shrubs along Ascot between Turner & Redwood Parkway
- The median and landscaped areas on the south side of Turner Parkway
- Replace landscaping along Turner Parkway between Admiral Callaghan Way & Ascot
- The median on Ascot Parkway from Redwood Parkway to the other side of the bridge just before Hawksbury
- Remove & replace irrigation & plants on Lake Herman Rd between Columbus to end
- Replace wrought fences on Picasso, Topley, Rodin & Glenview Circle
- North side of West bound lane on Columbus Pkwy from Blue Rock Springs Park to St. John's Mine Rd. Irrigate & landscape

- The slope over the creek and the slope below Torrey Pine Court
- The slope below Picasso, Topley, Archer and Rodin Courts
- The slope landscaping to the north behind Glenview Circle and above Redwood Parkway
- The slope surrounding Matthew Court
- Ascot Parkway beyond the Blue Rock Springs Golf Course/Greater Vallejo Recreation District Park
- Solano Bike Trail along the west boundary of the urban open space

Zone A's improvements are extra landscape maintenance related to annual color, tree care, additional litter pickup, and related utilities; and maintenance of entry monument and kiosk signs.

Specific improvements over the next five years include the following:

- Tree survey and mapping
- Irrigation controller upgrade
- Complete fire break expansions to 100'
- Lake Herman improvement project / design services
- Design services: medians at Redwood and Ascot; Ascot medians Redwood to Hawksbury; Columbus from Blue Rock to Redwood
- Install irrigation and landscaping on Columbus from Redwood to Bluerock Golf Course east bound lane and west bound lane.
- Remove and replace irrigation and landscaping in median on Ascot between Redwood and Hawkesbury
- Hydro seed bare fire break areas for grass stands
- Remove and replace irrigation and plants on 4 corner medians at Redwood and Ascot
- Remove and replace slope on Matthew Ct.
- Replace wrought fences on Picasso, Topley, Rodin and Glenview Circle
- Irrigate and landscape north side of west bound lane on Columbus Pkwy from Blue Rock Springs Park to St. John's Mine Rd
- Fill in median shrubs along Ascot between Turner and Redwood Parkway
- Replace landscaping along Turner Parkway between Admiral Callaghan Way and Ascot
- Trim trees on Columbus from I-80 to Lake Herman Road
- Remove and replace slope on Oakwood below Parkhaven Ct
- Remove and replace Oakwood medians
- Remove and replace monuments on Eagle Ridge, Campobello and Milano

### General Information

In fiscal Year 1999-2000, to ensure a high level of service for the LMD, the property owners through protest ballot proceeding approved an assessment increase and annual inflationary adjustment.

In fiscal year 2004-2005, formation of benefit Zone A was approved by property owners through a ballot proceeding. This ballot proceeding approved an assessment increase and annual inflationary adjustment applicable to those properties only.

It has been determined that the current maximum assessment rates for the LMD are sufficient to fund the annual maintenance of the LMD improvements. Based on the budget for fiscal year 2012-2013 the proposed assessments are at the authorized maximum assessment rates.

### **LMD Budget**

The following provides the proposed budgets and assessment rates for fiscal year 2012-2013 that are necessary to provide an appropriate level of maintenance for the LMD. The budgets include the City's estimate of anticipated expenditures, revenues and fund balances required for the annual maintenance and operation of the improvements. The assessment rate derived from these budgets and the established method of apportionment shall be used to calculate each parcel's assessments for fiscal year 2012-2013. The assessment rates derived from these budgets are less than or equal to the previously approved maximum assessment rate for both Zone A and the Non-Zone A parcels in the LMD.

### **SANDPIPER POINT LMD**

This LMD is designated as Sandpiper Point Landscape Maintenance District and may be referred to as Sandpiper Point LMD.

- Sandpiper Point LMD was formed in 1981
- The LMD serves a residential neighborhood of 385 parcels located in northwest Vallejo and is fully developed.

### **Boundaries**

The LMD is generally located within the area bounded by Meadows Drive, Catalina Way and the Napa County line.

### **Improvements**

The LMD maintains landscaped areas and weed control zones including approximately 4.5 acres of native and ornamental ground cover, shrubbery and trees; and 2.3 acres of weed controlled open space that are found in the following areas:

- The landscaped strips and medians found within the boundaries of Meadows Drive wetlands on the west, Mini Drive median landscapes on the east and the Catalina Circle Wetlands on the northwest
- Along Meadows Drive, Catalina Circle and Catalina Way
- The median islands of Mini Drive

Specific improvements over the next five years include the following:

- Remove and replace landscape and irrigation, Mini Drive medians from Severus to Drytown
- Trim trees
- Firebreak clearance

### **General Information**

In fiscal year 1999-2000 the landscape improvement areas to be maintained for this LMD were expanded, resulting in a significant increase to the LMD's overall maintenance costs. Although these new areas of maintenance had a significant negative impact on the financial health of the LMD, initially the additional expenses were offset by use of available reserve funds. Although the LMD still has some reserve funds available to offset these costs, they are no longer sufficient to cover the full annual expenditures for the LMD.

Therefore, it was determined that the maximum assessment rate did not generate sufficient revenues to adequately provide for the improvements. The City conducted proceedings in FY2008-2009 to ballot the property owners within the LMD for an increased assessment and an annual inflationary adjustment commencing in fiscal year 2008-2009 which was not approved.

### **LMD Budget**

The following provides the budget and maximum assessment rate for fiscal year 2012-13.

### **SOUTH VALLEJO BUSINESS PARK LMD**

This LMD is designated as South Vallejo Business Park Landscape Maintenance District and may be referred to as South Vallejo Business Park LMD.

- South Vallejo Business Park LMD was formed in 1981
- The LMD is a light industry park that serves nine light industry parcels located in southwest Vallejo with eight of the nine parcels being fully developed

### **Boundaries**

The LMD is generally located within the area bounded by Solano Avenue, Fifth Street Avenue, Sonoma Boulevard, and the railroad tracks in the area.

### **Improvements**

The LMD maintains parkway landscape areas adjacent to the properties within the LMD totaling approximately 2 acres of grass area with trees; and 0.5 acre of ornamental ground cover and shrubbery with trees.

Specific improvements over the next five years include the following:

- Irrigation controller upgrades
- Tree survey and mapping
- Irrigation system check
- Cobbles median rehabilitation
- Rehabilitate corners at Sonoma and Solano
- Upgrade of irrigation in lawn areas
- Installation of color bed
- Remove and replace street slope on 5th Street
- Trim trees

### **General Information**

In recent years, property owners within the LMD contacted the City regarding ways to reduce maintenance costs including reductions in irrigation. The City agreed to assist with this reduction by providing for water conservation practices in the maintenance contract. However, it has been determined that further reductions could only be achieved by:

- Eliminating the grassy mounding areas and/or removing trees from the turf planting areas and restricted them to stand-alone landscape plots; or
- Removing the landscaped areas from Corporate Place to Sonoma Boulevard at the time the empty lot along Sonoma Boulevard is developed.

A financial analysis of the LMD and the improvements indicated that the maximum assessment rate did not generate sufficient revenues to adequately provide for the improvements. The City conducted proceedings in FY2008-2009 to ballot the property owners within the LMD for an increased assessment and an annual inflationary adjustment commencing in fiscal year 2008-2009 which was approved.

**LMD Budget**

The following provides the proposed budget and increased maximum assessment rate for fiscal year 2012-2013 that is necessary to provide an appropriate level of maintenance for the LMD. The budget includes the City's estimate of anticipated expenditures, revenues and fund balances required for the annual maintenance and operation of the improvements. The assessment rate derived from this budget and the established method of apportionment shall be used to calculate each parcel's assessments for fiscal year 2012-2013.

### **TOWN AND COUNTRY II THROUGH V LMD**

This LMD is designated as Town & Country II-V Landscape Maintenance District and may be referred to as Town & Country II-V LMD.

- Town & Country II-V LMD was formed in 1986
- The LMD serves a residential neighborhood of 336 parcels located in northeast Vallejo and is fully developed with no expected change in Equivalent Benefit Units (EBU)

### **Boundaries**

The LMD is generally located within the area bounded by State Highway 37, Whitney Avenue, Serpentine Drive and Opal Drive.

### **Improvements**

The LMD maintains landscaped areas and weed control zones that include approximately 3 acres of native and ornamental ground cover, shrubbery and trees on the various slopes within the LMD including:

- The slopes between the residences of Whitney Avenue and Basalt Drive
- The slope behind residences of College Avenue and Olympic Drive including the access area from Quartz Drive

Specific improvements over the next five years include the following:

- Clean out over-mature vegetation on slopes between Basalt & Whitney
- Clean out over-mature vegetation on slopes between Olympic & Serpentine
- Clean out over-mature vegetation between Olympic & College from Serpentine to Loyola
- Clean out over-mature vegetation between Loyola Way & Caltrans fence line

### **General Information**

A financial analysis of the LMD and the improvements indicates that the current maximum assessment rate does not generate sufficient revenues to adequately provide for the improvements. The City conducted a proceeding in FY2008-2009 to ballot the property owners within the LMD for an increased assessment and an annual inflationary adjustment commencing in fiscal year 2008-2009 which was not approved.

## BUDGET DEFINITIONS

The following provides a summary of the services and costs that are included in the LMD Budgets:

### Maintenance Expenses:

Landscape Maintenance Services — Includes all contracted labor or City personnel, material and equipment required to properly maintain the landscaping, irrigation systems, drainage systems, trail systems, fencing, natural drainage areas, open spaces, and related facilities within the LMD.

Landscape Water — Includes the cost of the furnishing of water required for the maintenance of the landscaping.

Utilities — Includes the cost of the furnishing of water required for the maintenance of the landscaping and electricity required for the irrigation systems and hard-wire telephone connections at upgraded irrigation controllers, monitored by City Staff.

Vandalism and Repairs — Includes repairs to the improvements in the LMD that is not normally included in the yearly Landscape Maintenance costs. This may include repairs or replacement of damaged improvements or facilities that may be the result of vandalism, storms, frost, natural occurrences, etc., including graffiti abatement.

Planned Rehabilitation/Non Recurring Services — Includes annual funding for planned landscape projects, which will significantly benefit and upgrade a specific LMD and are considered above normal routine landscape maintenance work; or Non-Recurring work performed by City personnel which has been identified by the city to be above normal routine landscape maintenance work.

### Administration Expenses:

City Overhead Allocation — The cost allocation of all particular departments and staff of the City, for providing general support, services and operations related to the various districts, enterprises and accounts of the City.

District Management — The cost of City staff and materials associated with the coordination of LMD services and operations, response to public concerns and education, and efforts associated with the levy and collection of assessments. This item also includes the costs of contracting with professionals to provide additional administrative, legal or engineering services specific to the LMD including any required notices, mailings or property owner protest ballot proceedings, and preparation of the Engineer's Report.

County Administration Fee — This is the estimated cost to the LMD for the County to collect LMD assessments on the property tax bills. This charge is based on a flat rate per fund number plus a charge per assessment levied.

### **Collections/ (Credits) Applied:**

Fund Balance Collection/ (Transfer) — The 1972 Act provides for a LMD to fund an Operating Reserve Fund as well as the collection of funds in installments for specific projects. This budget item identifies funds collected or transferred from these two LMD Fund Balances:

- Operating Reserve Fund provides for the collection of funds to operate the LMD from the time period of July 1 (beginning of the Fiscal Year) through December 10 or when the County provides the City with the first installment of assessments collected from the property tax bills (typically January or February).
- Rehabilitation Funds may be collected to cover the cost of repairs that are outlined in either a defined project plan or periodic maintenance costs not normally included in the yearly maintenance contract costs, including the costs associated with upgrades, repairs, replacements or refurbishing of the improvements. These amounts may be budgeted and spent each fiscal year, or collected in installments and held in the Rehabilitation Reserve Fund for a large improvement projects.

Other Revenues/General Fund (Contributions) — This item includes additional funds designated for the LMD that are not annual assessments. These funds are added to the LMD account to reduce assessments (contributions are shown as a negative amount), and may be from non-LMD or LMD sources including City General Fund Contributions for general benefit costs and/or interest earnings. This item may also include the repayment of funds previously loaned to the LMD from other sources (a positive amount) to be collected as part of the annual assessments.

### **Balance to Levy**

The Balance to Levy — The total amount to be collected for the current fiscal year through assessments (for special benefits). The Balance to Levy represents the sum of Total Maintenance Budget, Administration Budget; and Collections (Credits) Applied. Only those costs related to the improvements identified as special benefits are levied and collected on the tax roll. This amount divided by the "Total Equivalent Benefit Units" for the LMD determines the proposed assessment rate for the fiscal year.

## METHOD OF APPORTIONMENT

---

### METHOD OF APPORTIONMENT

This section of the Engineer's Report explains the special and general benefits to be derived from the installation, maintenance and servicing of Improvements located throughout the LMDs, and the methodology used to apportion the total assessment to properties within the LMDs.

The LMDs consists of Assessor Parcels within the boundaries of the City of Vallejo as defined by the County of Solano tax code areas. The parcels include all privately or publicly owned parcels within said boundaries. The method used for apportioning the assessments is based upon the proportional special benefits to be derived by the properties in the LMDs over and above general benefits conferred on real property or to the public at large. The apportionment of special benefit is a two-step process: the first step is to identify the types of special benefit arising from the improvements, and the second step is to allocate the assessments to property based on the estimated relative special benefit for each type of property.

### DISCUSSION OF BENEFIT

In summary, the assessments can only be levied based on the special benefit to property. This benefit is received by property over and above any general benefits. With reference to the requirements for assessments, Section 22573 of the Landscaping and Lighting Act of 1972 states:

*"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

Proposition 218, as codified in Article XIID of the California Constitution, has confirmed that assessments must be based on the special benefit to property and that the value of the special benefits must reasonably exceed the cost of the assessment:

*"No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."*

Benefit categories have been established that represent the types of special benefit to residential, commercial, industrial and other lots and parcels resulting from the installation, maintenance and servicing lighting and landscaping improvements to be provided with the assessment proceeds. These categories of special benefit are summarized as follows:

- A. PROXIMITY TO IMPROVED LANDSCAPED AREAS AND OTHER PUBLIC IMPROVEMENTS WITHIN THE LANDSCAPE MAINTENANCE DISTRICTS.
- B. ACCESS TO IMPROVED LANDSCAPED AREAS AND OTHER PUBLIC IMPROVEMENTS WITHIN THE LANDSCAPE MAINTENANCE DISTRICTS.
- C. IMPROVED VIEWS WITHIN THE LANDSCAPE MAINTENANCE DISTRICTS.
- D. EXTENSION OF A PROPERTY'S OUTDOOR AREAS AND GREEN SPACES FOR PROPERTIES WITHIN CLOSE PROXIMITY TO THE IMPROVEMENTS.
- E. CREATION OF INDIVIDUAL LOTS FOR RESIDENTIAL AND COMMERCIAL USE THAT, IN ABSENCE OF THE ASSESSMENTS, WOULD NOT HAVE BEEN CREATED.

In this case, the recent the SVTA v. SCCOSA decision provides enhanced clarity to the definitions of special benefits to properties in three distinct areas:

- Proximity
- Expanded or improved access
- Views

The SVTA v. SCCOSA decision also clarifies that a special benefit is a service or improvement that provides a direct advantage to a parcel and that indirect or derivative advantages resulting from the overall public benefits from a service or improvement are general benefits. The SVTA v. SCCOSA decision also provides specific guidance that park improvements are a direct advantage and special benefit to property that is proximate to a park that is improved by an assessment:

*the characterization of a benefit may depend on whether the parcel receives a direct advantage from the improvement (e.g. proximity to a park) or receives an indirect, derivative advantage resulting from the overall public benefits of the improvement (e.g. general enhancement of the district's property values).*

Proximity, improved access and views, in addition to the other special benefits listed above further strengthen the basis of these assessments.

**Special Benefits from the Original Engineer's Report**

The improvements provided within the various LMDs may include, but is not limited to landscaped medians, parkways, entryways, slopes, parks, open-space areas and appurtenant facilities. The annual assessments outlined in this Report are based on the estimated costs to provide all necessary service, operation, administration, and

maintenance required each year to keep these improvements in a healthy, vigorous, and satisfactory condition and benefit the properties. The special benefits associated with the landscape improvements and facilities are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties within the LMDs providing a positive representation of the area.
- Environmental enhancement through improved erosion resistance, and dust and debris control.
- Increased sense of pride in ownership of property within the LMD resulting from well-maintained improvements associated with the properties.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the LMD through well-maintained surroundings and amenities including abatement of graffiti and vandalism.
- Enhanced environmental quality of the parcels within the LMDs by moderating temperatures, providing oxygenation and attenuating noise.
- An enhanced sense of pride within the neighborhoods and communities and increased business opportunities as a result of enhanced surroundings and community pride.
- Enhanced adaptation of the urban environment within the natural environment and improved aesthetic value of the neighborhood and properties within the LMDs by establishing green space and recreational areas for increased social opportunities and activities that help to strengthen family value and reduce ethnic and social tensions.
- Enhanced quality of life through well-maintained green space and landscaped areas.

In addition to many of the special benefits associated with landscape amenities, local parkland and recreational facilities provide the further benefits of:

- Increased neighborhood involvement and interaction.
- Health, social and self-improvement benefits derived from utilizing the facilities.
- Promotes a positive atmosphere and recreational opportunities for the youth in the neighborhood that encourages physical activity, group participation and character building.
- Increased social opportunities and active involvement for senior citizens.
- Family and group activities that help to strengthen family value and reduce ethnic and social tensions.
- The esthetic value of green space and recreational areas within the urban environment.

The preceding special benefits contribute to the overall aesthetic value, security and desirability of each of the assessed parcels and thereby provide a special enhancement to those properties. Furthermore, it has been determined that the lack of funding to properly service and maintain the improvements would likely have a direct negative impact on those properties.

## **GENERAL VERSUS SPECIAL BENEFIT**

In absence of the assessments, the Improvements in the LMDs would not be provided, so the Improvements are “over and above” what otherwise would be provided. Many of the parcels would not even exist if the assessments were not established because an assessment for the specific Improvements within the LMDs was a condition of development approval.

All of the Assessment proceeds derived from the LMDs will be utilized to fund the cost of providing a level of tangible “special benefits” in the form of landscaped parkways, landscaped medians, landscaped corridors, trail systems, park facilities, other Improvements and costs incidental to providing the Improvements and collecting the Assessments.

Although these Improvements may be available to the general public at large, the permanent public Improvements in the LMDs were specifically designed, located and created to provide additional and improved public resources for the direct advantage of property inside the LMDs, and not the public at large. Other properties that are either outside the LMDs or within the LMDs and not assessed, do not enjoy the unique proximity, access, views and other special benefit factors described previously. Moreover, the homes in the LMDs would not have been built if the Assessments were not established because an assessment for the Improvements was a condition of development approval.

In the 2009 Dahms case, the court upheld an assessment that was 100% special benefit on the rationale that the services funded by the assessments were directly provided within the assessment district. It is also important to note that the improvements and services funded by the assessments in Pomona in the Dahms case are similar to the improvements and services funded by the Assessments described in this Engineer’s Report and the Court found these improvements and services to be 100% special benefit. Also similar to the assessments in Pomona, the Assessments described in this Engineer’s Report fund improvements and services directly provided within the LMDs and every benefiting property in the LMDs enjoys proximity and access to the Improvements. Therefore, Dahms establishes a basis for minimal or zero general benefits from the Assessments.

## **BENEFIT FINDING**

In summary, real property located within the boundaries of the LMDs distinctly and directly benefits from closer proximity, access and views of Improvements funded by the Assessments, the creation of developable parcels and the extension of usable land area provided by the assessments. The Improvements are specifically designed to serve properties in the LMDs, not other properties or the public at large. The LMDs have been narrowly drawn to include those parcels that receive a direct advantage from the Improvements. The public at large and other properties outside the LMDs receive only limited benefits from the Improvements because they do not have proximity, good access or views of the Improvements. These are special benefits to property in the LMDs in much the same way that sewer and water facilities, sidewalks and paved streets enhance the

utility and desirability of property and make them more functional to use, safer and easier to access.

Without the Assessments, the public improvements within the LMDs would not be maintained and would turn into brown, unmaintained and unusable public improvements and public lands. If this happened, it would create a significant and material negative impact on the desirability, utility and value of property in the LMDs. Most importantly, without the Assessments, the developed properties would not exist, because the subdivisions and development proposals would not have been approved. The Improvements are, therefore, clearly above what otherwise would be provided and the Improvements uniquely and specially benefit parcels in the LMDs in a way that is not enjoyed by the general public or other property. We therefore conclude that all the Improvements funded by the Assessment are of special benefit to the identified benefiting properties located within the LMDs and that the value of the special benefits from such Improvements to property in the LMDs reasonably exceeds the cost of the Assessments for every assessed parcel in the LMDs. (In other words, as required by Proposition 218; the reasonable cost of the proportional special benefit conferred on each parcel reasonably exceeds the cost of the assessments.) Any general benefits to surrounding properties outside of the LMDs, if there were any, are collateral and conferred concomitantly.

General benefit is identified as that benefit received by properties outside of the LMD. General benefit cannot be assessed to property within the LMD boundary.

Prior to the Bordoni Ranch development, there was a 6.74 acre park located on the south side of Regents Park Drive just east of Columbus Parkway. This park had very few amenities and consisted primarily of grass, trees and sidewalks and was maintained by the GVRD. In anticipation of the increased demand to be placed on the park by the new developments, the previous park was demolished and is going to be completely reconstructed and enhanced.

Once the enhanced park is completed, the City and the GVRD will continue to provide applicable maintenance services as agreed upon, which will contribute approximately 50% of the cost for the maintenance of the park, in proportion to the estimated general benefit that the park provides to the neighboring communities at large. It is reasonable to assume that the park maintenance costs above the contribution made by the City and the GVRD approximately represent the special benefit to the properties within the LMD. This assignment of special benefit to the properties within the LMD is reasonable given that the reconstruction and enhancement of the park was desired and needed due to the anticipated development of properties within the LMD.

When the Northeast Quadrant LMD was established, it was determined that a portion of the Columbus Parkway improvements within the LMD is considered general benefit. The City will contribute each year towards the landscape maintenance costs, water costs and associated administrative expenses for this particular improvement area. In compliance with the California Constitution Article XIID the annual budget includes a contribution identified as "Other Revenues/General Fund (Contribution)", which represents the costs identified as general benefit.

The original determination of benefits to property and the method of special benefit apportionment to property were developed by Willdan Financial Services when the LMDs were originally approved by property owners as noted in the Description of LMDs section of this Report. The description of benefits and the determination and apportionment of benefits to property in this Report are consistent with the original benefit determination and apportionment. The original method of apportionment of assessment and other relevant elements of the original Engineer's Reports for the LMDs are hereby incorporated by reference.

*Special Note Regarding General Benefit and the SVTA v. SCCOSA Decision:*  
*There is no widely-accepted or statutory formula for calculating general benefit. General benefits are benefits from improvements or services that are not special in nature, are not "particular and distinct" and are not "over and above" benefits received by other properties. The SVTA vs. SCCOSA decision provides some clarification by indicating that general benefits provide "an indirect, derivative advantage" and are not necessarily proximate to the improvements.*

*The maintenance and servicing of these improvements is also partially funded, directly and indirectly from other sources including City of Vallejo, the County of Solano and the State of California. This funding comes in the form of grants, development fees, special programs, and general funds, as well as direct maintenance and servicing of facilities (e.g. transportation facilities, other infrastructure, etc.) Finally, this funding from other sources more than compensates for general benefits, if any, received by the properties within the assessments districts.*

#### **METHOD OF ASSESSMENT**

The method of apportionment for the LMDs calculates the receipt of special benefit from the respective improvements based on the actual or proposed land use of the parcels within the LMDs. The net amount to be assessed upon parcels within the LMDs is apportioned by a formula and method that fairly distributes the net amount to be assessed among all assessable parcels in proportion to the special benefits to be received by each parcel from the improvements. Additionally, in compliance with Article XIID Section 4 of the State Constitution each parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred to that parcel. The benefit formula used to determine the assessment obligation is therefore based upon both the improvements that benefit the parcels within the LMDs as well as the proposed land use of each property as compared to other parcels that benefit from those specific improvements.

#### **Equivalent Benefit Units**

The special benefits received by each parcel within the LMDs and each parcel's proportional annual assessment is calculated on the basis of a formula known as Equivalent Benefit Units. The Equivalent Benefit Unit (EBU) method of apportionment establishes a proportional benefit relationship between the various parcels within the LMDs and the improvements provided by the LMDs. The EBU assigned to each parcel utilizes a set formula and proportional weighting factors based on the land use, size and development status of each parcel within the LMDs compared to other parcels within the LMDs.

### Equivalent Benefit Unit Application by Land Use

<b>Land Use Designation</b>	<b>EBU Application</b>
Single Family Residence	One (1.0) Benefit Unit per Unit
Vacant Residential Zoned	Four-Tenths (0.4) Benefit Unit per Acre
Multi Family Residence	Seven-Tenths (0.7) Benefit Unit per Unit

### Equivalent Benefit Unit Application by Land Use (Continued)

<b>Land Use Designation</b>	<b>EBU Application</b>
Planned-Residential Development <i>(Has received tentative or final map approval)</i>	One (1.0) Benefit Unit per Planned Single-Family Unit, Seven-Tenths (0.7) Benefit Unit per Multi-Family Unit
Commercial Use	Three (3.0) Benefit Units per Acre
Vacant Commercial Zoned	Four-Tenths (0.4) Benefit Unit per Acre
Industrial Use	Three (3.0) Benefit Units per Acre
Vacant Industrial Zoned	Four-Tenths (0.4) Benefit Unit per Acre
Exempt Properties	Zero (0.0) Benefit Units per Parcel

While all the land use designations shown above are not necessarily applicable in each LMD, each LMD is comprised of one or more of these land uses, and the proportional relationship between those various land uses is still applicable. The benefit formula applied to parcels within each LMD is based on the preceding EBU application. Each parcel's EBU correlates the parcel's special benefit received as compared to the other parcels benefiting from the improvements within that LMD.

### Exceptions

Bordoni Ranch LMD was formed with the following special conditions:

Planned-Residential Development — This land use is defined as any property for which a tentative map has been filed but for which a final tract map has not yet been approved. Properties designated as Planned-Residential Development shall be assessed at 2.0 EBU per acre, but a minimum of 1.00 EBU (parcels less than one acre are assigned 1.0 EBU).

Vacant Residential Zoned — This land use is defined as property that is zoned or planned for residential development, but a development map (tentative or final map) for the property has not yet been approved. Properties designated as Vacant Land shall be assessed at 1.0 EBU per acre, but a minimum of 1.00 EBU (parcels less than one acre are assigned 1.0 EBU).

The following formula is used to calculate each parcel's proportional benefit:

$$\text{Property Type EBU} \times (\text{Acreage/Units/Parcel}) = \text{Parcel's calculated EBU}$$

An assessment amount per EBU (“Rate”) for the LMD improvements is established by taking the total cost of the improvements and dividing that amount by the total number of EBUs for parcels benefiting from such improvements.

$$\text{Total Balance to Levy} / \text{Total EBUs} = \text{Levy per EBU (“Rate”)}$$

This amount is then applied back to each parcel’s individual EBU to determine each parcel’s proportionate benefit and assessment obligation.

$$\text{Rate} \times \text{Parcel’s EBU} = \text{Parcel’s Levy Amount}$$

## APPEALS AND INTERPRETATION

Any property owner who feels that the assessment levied on the subject property is in error as a result of incorrect information being used to apply the foregoing method of assessment, may file a written appeal with the Director of Public Works or her or his designee. Any such appeal is limited to correction of an assessment during the then current or, if before July 1, the upcoming fiscal year. Upon the filing of any such appeal, the Director of Public Works or his or her designee will promptly review the appeal and any information provided by the property owner. If the Director of Public Works or her or his designee finds that the assessment should be modified, the appropriate changes shall be made to the assessment roll. If any such changes are approved after the assessment roll has been filed with the County for collection, the Director of Public Works or his or her designee is authorized to refund to the property owner the amount of any approved reduction. Any property owner who disagrees with the decision of the Director of Public Works or her or his designee, may refer their appeal to the City Council of the City of Vallejo and the decision of the City Council of the City of Vallejo shall be final.

## INFLATIONARY ADJUSTMENT

### Bordoni Ranch LMD

As noted previously, the property owners within the Bordoni Ranch LMD approved an inflationary adjustment in fiscal year 2010-2011 through a ballot proceeding when the LMD was formed. The following paragraph describes the approved inflationary adjustment:

The Maximum Assessment Rate is equal to the (Initial) Zone Maximum Assessment Rate established for fiscal year 2010-2011 adjusted annually by the greater of, three percent (3%) or the annual percentage change in the Consumer Price Index (CPI) of “All Urban Consumers” for the San Francisco-Oakland-San Jose Area.

The change in the CPI from February 2011 to February 2012 was 3.00%. Therefore, the maximum authorized assessment rate for the Bordoni Ranch LMD fiscal year 2012-2013 is increased by 3.00% which equates to \$498.62 per equivalent benefit unit for Zone 1 and \$342.67 for Zone 2. The estimate of cost and budget in this Engineer’s Report proposes assessments for fiscal year 2012-2013 at the maximum authorized rate of \$498.62 per equivalent benefit unit for Zone 1 and \$342.67 per equivalent benefit unit for Zone 2, which is less than the maximum authorized assessment rate.

### **Highlands – Garthe Ranch LMD (Zone B)**

As noted previously, the property owners within the Highlands of Garthe Ranch LMD (Zone B) approved an inflationary adjustment in fiscal year 2007-2008 through a ballot proceeding when the LMD / Zone B was established. The following paragraph describes the approved inflationary adjustment:

The Maximum Assessment Rate is equal to the Maximum Assessment Rate established for the previous fiscal year adjusted annually by the greater of, three percent (3%) or the annual percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), as distributed by the Bureau of Labor Statistics for the San Francisco-Oakland-San Jose Area.

The change in the CPI from February 2011 to February 2012 was 3.00%. Therefore, the maximum authorized assessment rate for the Garthe Ranch LMD Zone B fiscal year 2012-2013 is increased by 3.00% which equates to \$1,843.99 per equivalent benefit unit. The estimate of cost and budget in this Engineer's Report proposes assessments for fiscal year 2012-2013 at the rate of \$1,843.99, which is the maximum authorized assessment rate.

### **Northeast Quadrant LMD**

As noted previously, the property owners within the Northeast Quadrant LMD approved an inflationary adjustment in fiscal year 1999-2000 through a ballot proceeding. The following paragraph describes the approved inflationary adjustment:

The maximum assessment for each fiscal year is increased by the percentage increase from April 1 of the prior year to April 1 of the current year by the Consumer Price Index for All Urban Consumers (CPI-U), as distributed by the Bureau of Labor Statistics (BLS) for the Consolidated Metropolitan Statistical Area (CMSA) covering San Francisco-Oakland-San Jose. If the April CPI-U is not available at the time the report is prepared, a similar time period may be used. However, the maximum assessment rate in any fiscal year (for the Non-Zone A properties) shall not exceed \$400 as adjusted by the CPI-U, unless approved by a majority vote of the property owners in the Northeast Quadrant LMD. The Zone A's assessment rate shall not be capped at a particular level in any fiscal year.

The change in the CPI from February 2011 to February 2012 was 3.00%. Therefore, the maximum authorized assessment rate for the Northeast Quadrant LMD fiscal year 2012-2013 is increased by 3.00% which equates to \$400.75 per equivalent benefit unit for Zone A and \$259.14 per equivalent benefit unit for Non-Zone A. The estimate of cost and budget in this Engineer's Report proposes assessments for fiscal year 2012-2013 at the rate of \$400.75 per equivalent benefit unit for Zone A and \$259.14 per equivalent benefit unit for Non-Zone A, which is the maximum authorized assessment rate.

### **Marine World / Fairgrounds LMD**

The Maximum Assessment Rate is equal to the Maximum Assessment Rate established for the previous fiscal year adjusted annually by the annual percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), as distributed by the Bureau of Labor Statistics for the San Francisco-Oakland-San Jose Area.

The change in the CPI from February 2011 to February 2012 was 3.00%. Therefore, the maximum authorized assessment rate for the Marine World / Fairgrounds LMD fiscal year

2012-2013 is increased by 3.00% which equates to \$113.01 per equivalent benefit unit. The estimate of cost and budget in this Engineer's Report proposes assessments for fiscal year 2012-2013 at the rate of \$113.01, which is the maximum authorized assessment rate.

### **South Vallejo Business Park LMD**

The Maximum Assessment Rate is equal to the Maximum Assessment Rate established for the previous fiscal year adjusted annually by the annual percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), as distributed by the Bureau of Labor Statistics for the San Francisco-Oakland-San Jose Area.

The change in the CPI from February 2011 to February 2012 was 3.00%. Therefore, the maximum authorized assessment rate for the South Vallejo Business Park LMD fiscal year 2012-2013 is increased by 3.00% which equates to \$3,054.14 per equivalent benefit unit. The estimate of cost and budget in this Engineer's Report proposes assessments for fiscal year 2012-2013 at the rate of \$3,054.14, which is the maximum authorized assessment rate.

## ASSESSMENT

---

**WHEREAS**, the City of Vallejo City Council directed the undersigned Engineer of Work to prepare and file a report presenting an estimate of costs, a diagram for the LMDs and an assessment of the estimated costs of the improvements upon all assessable parcels within the LMDs, to which Resolution and the description of the Improvements therein contained, reference is hereby made for further particulars;

**NOW, THEREFORE**, the undersigned, by virtue of the power vested in me under said Act and the order of the City Council of said City of Vallejo, hereby make the following assessment to cover the portion of the estimated cost of the improvements, and the costs and expenses incidental thereto to be paid by the LMDs.

As required by the Act, an Assessment Diagram is hereto attached and made a part hereof showing the exterior boundaries of said LMDs. The distinctive number of each parcel or lot of land in the LMDs is its Assessor Parcel Number appearing on the Assessment Roll.

I do hereby assess and apportion the net amount of the cost and expenses of the improvements, including the costs and expenses incident thereto, upon the parcels and lots of land within the LMDs, in accordance with the special benefits to be received by each parcel or lot, from the improvements, and more particularly set forth in the Cost Estimate and Method of Assessment hereto attached and by reference made a part hereof.

The assessment is made upon the parcels or lots of land within the LMDs in proportion to the special benefits to be received by the parcels or lots of land, from the improvements.

Each parcel or lot of land is described in the Assessment Roll by reference to its parcel number as shown on the Assessor's Maps of the County of Solano for the fiscal year 2012-2013. For a more particular description of the property, reference is hereby made to the deeds and maps on file and of record in the office of the County Recorder of the County.

I hereby place opposite the Assessor Parcel Number for each parcel or lot within the Assessment Roll, the amount of the assessment for the fiscal year 2012-2013 for each parcel or lot of land within the LMDs.

Dated: May 21, 2012

Engineer of Work

A handwritten signature in blue ink, appearing to read "John W. Bliss". The signature is written over a faint horizontal line.

## APPENDIX A - 2012-2013 ASSESSMENT ROLL

---

An Assessment Roll (a listing of all parcels assessed within the LMDs and the amount of the assessment) will be filed with the City Clerk and is, by reference, made part of this report and is available for public inspection during normal office hours.

Each lot or parcel listed on the Assessment Roll is shown and illustrated on the latest County Assessor records and these records are, by reference made part of this report. These records shall govern for all details concerning the description of the lots or parcels.

## APPENDIX B - ASSESSMENT DIAGRAM

---

Assessment Diagrams for the LMDs have been prepared and are on file with the City. Reference is hereby made to such Diagrams, and they are incorporated herein by reference.
